binder

binder, German producer in the field of circular connectors, specialized in connectors for measurement and control technology as well as automation.

- Industrial connectors – Snap-in IP40, Bajonett, Micro Push-Pull, M9 IP40, M16 IP67 ...
- Automation technology – M5, M8, M12-A and M12-B, M12-D, M12-S, M12-T, 7/8"
- Power connectors – M23, RD24, Bajonett HEC, RD30
- Connectors for Medical applications
- Accessories & LED Industrial lights

COMPONENTS & SWITCHES

> Product overview

> Tactile Switches

> Emergency buttons

> E-Box

RAFI - one of the world's leading suppliers of high-performance solutions for Human - Machine - Interfaces (HMI) and Electronic Manufacturing services (EMS) – RAFI has grown to become an international high-tech company with more than 100 years of history. The RAFI Group is characterized by its independence, healthy growth and profitability.

- Control and Signaling
- Components (RAFIX, RAMO, Lumotast, E-Box, Signal Lamps, IO-Link, Emergency stops)
- Tactile Switches
- Digital Solutions
- Accessories

RAFI

ENCODER

> Catalogue

W+S Messsysteme, Germany, provides many years of experience in creative development, production and innovation of precise optical and magnetic encoders. Specialization in the development and manufacturing of rotary encoders for a wide range of applications, they offer solutions that precisely meet customer requirements and satisfy the highest quality standards.

Ex-encoders of ATEX Directive 2014/34/EU (explosion-protected encoders) are just as much part of the range as

- Incremental Encoders
- Absolute Encoders
- Multiturn Encoders
- Commutation Encoders
- Ex and IP Encoders
- Special encoders
- Draw-wire Systems

Established in 1966 EDAC group is offering now one of the widest ranges of interconnect solutions in the world. These include D-Subs, RJ45, USB & Firewire, Waterproof, PLCC Sockets, Pin Headers, Cable Assemblies and Custom Solutions suitable for many different applications and industries.

At EDAC, they are proud of their global Engineering Team which is well positioned to serve customers throughout the world. They remain practical and flexible when change is needed.

- Card edge connectors
- Rectangular connectors
- D-Sub connectors
- Modular & Magnetic Jacks
- USB Connectors
- HDMI Connectors

ATAM is a leading Italian company specializing in the manufacture of electric coils and sensors.

Founded in 1970, ATAM has continuously invested in research, development and innovation to offer high quality and technologically advanced products.

The company places great emphasis to sustainability and quality and runs production facilities and distribution centers worldwide to serve the global market.

- Solenoid valves (types A, B, C), Atex approved
- Electric coils
- Sensors
- Connection components
- Tailor-made solutions

CONNECTOR

> Techno Website

Techno Srl is a leading company in the field of electrical connections with over 30 years of experience. The company offers innovative, customized solutions developed and manufactured in Italy. With a dedicated team and state-of-the-art logistics, Techno ensures that customers worldwide receive optimal service.

- Joint connectors
- Plug & socket connectors (cable to cable)
- Junction boxes (empty, with terminal blocks)
- Current distributors (pre-configured)
- Terminal blocks (rectangular, round)
- Cable glands (nylon and rubber)
- Accessories (for fixing, cables, assembly, closures)
- Customized solutions

NEUTRIK

Neutrik Group develops, designs, manufactures, and globally distributes innovative electrical and electronic interconnect products and systems under the NEUTRIK, REAN and CONTRIK brands. As a multi-brand company, the Neutrik Group has long dominated the world of professional entertainment and industrial applications, setting new standards in a wide range of segments. NEUTRIK offers premium copper connectors and cables, innovative fiber optic systems and unique digital network devices.

Round Connectors:

- Audio-, Entertainment- & Light technic
- Power / Data / Industrial
- Healthcare, Equipotential Bonding

MOBILE TECHNOLOGY

RADIO FREQUENCY SYSTEMS

Radio Frequency Systems (RFS) is a globally active developer and manufacturer of RF products for mobile communications, radio relay (waveguides, antennas ...) and broadcasting / defense (cables, connectors, antennas).

The globally active and innovative company employs over 1,300 people worldwide and operates 7 production facilities worldwide.

- Antennas
- DAS Product
- Attenuators
- Earthings
- Jumper cables
- Coax cable
- Dehydrators
- Loads
- RET/AISG cables
- Clamps
- Cable assemblies
- Connectors
- Adapters
- Surge protection

Building radio Systems:

Planning and realization of building radio systems in accordance with preventive fire protection (guideline TRVB S159)

Optionally with integration of the mobile communication providers

DEHYDRATORS

> Product overview

The use of dehydrators from Friedl & Müller makes wet waveguides or coaxial cables a thing of the past. This dehydrator, also known as a line fan, ensures with an adapted overpressure and heating system that no moist saturated air cannot enter into your system.

- 100 liters output per hour
- 300 liters output per hour
- 1000 liters output per hour

CABLES

> Product overview

> SPE

CEAM is not just a simple cable-producer: They put together innovation, quality and values learnt in a 50-years-story to provide the best-future oriented solutions customized on each of their customer's needs.

- Industrial Ethernet
- Profinet
- Hybrid cables
- Single-Pair-Ethernet – and more

ANTENNAS

> PCTEL Antennas

> Industrial IoT Devices

> Networking Testing Solutions

PCTEL (including many former Kathrein Antennas):

For over 25 years, PCTEL engineers have applied their experience and expertise to solving wireless challenges through: Innovative design, close collaboration with customers and a proven commitment to quality, safety and performance.

Supplying antennas for:

AM/FM, Bluetooth, WIFI, Mobile (2G/3G/4G/5G) and GNSS, GPS, Satellite Bands, Industrial IoT devices, network testing solutions
